## *Road Naming Guidelines*

---

**Naming:** Each road shall bear the same name along the entirety of the road. Segments of the road shall not have different names. Road names longer than 15 letters, or names with Hyphens, apostrophes, periods, etc. are not allowed.

**Duplications:** There can be no duplications of road names. Road Names should not sound alike (Main, Maine) or spelled alike (Wise, Wize).

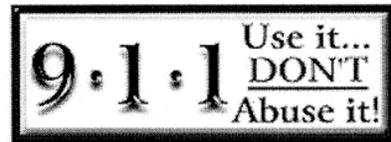

**Personal Names:** Road names can include the first or last name of an individual, but not both. Consider historical or generic names. This will minimize future disputes.

**New Name Requests:** When changing a road name, refrain from changing a well known road name to a new road name. This could increase emergency response time. More than 50% of the residents along the road must be in agreement to the road name and indicate so by signing the petition portion of the road name form.

**Private Lanes:** No private lanes shall end with Road, Boulevard or Avenue.

**Two-County Roads:** If part of your road is in another county, coordinate the name with that County, so that the entire road is addressed properly.
